

Dear UEFI Enthusiasts and Firmware Developers,

As you may know by now that The UEFI Testing Working Group (UTWG) from the Unified EFI Forum (UEFI) would like to invite you to the UEFI Plugfest and Technology Conference, which will be held at AMD Headquarters in Sunnyvale, CA the week of Sept 24th, 2007. The event will consist of a plugfest and advanced technical training sessions. One key focus of the plugfest will be to test the boot and installation process for UEFI support on PC clients. At this time, we would like to call your attention that Windows Vista SP1 beta with UEFI boot support will be available for test at the plugfest.

More information about this event is available at <http://www.uefi.org/events/>.

We have also extended the registration deadline. Please respond to Preeta Raman (preeta.raman@amd.com) **by September 7th, 2007** to let us know if you will be attending this event.

I would like, on behalf of UTWG, to thank AMD for providing the facilities and hosting this event with the UEFI Forum, and to thank AMD, Intel and Microsoft to co-sponsor this event with the UEFI Forum.

We look forward to seeing you in Sunnyvale!

Best Regards,

A handwritten signature in blue ink that reads 'Dong Wei'.

Dong Wei
VP and UTWG Chair
The UEFI Forum, Inc.
